

Virtual Region 10 Science and Engineering Fair Expo 2020

The Riverside County Science and Engineering Fair (RCSEF) in collaboration with the Riverside County Office of Education and the San Bernardino County Superintendent of Schools is proud to announce the Science and Engineering Fair Expo 2020! The purpose of the RCSEF Expo is to support and encourage students in developing research and inquiry. There will be workshops that are centered on topics specific to the nature of scientific study, the engineering cycle, society for science and the public programs, project safety forms, and other topics related to K-12 research and inquiry. Students will present their “award winning” research projects and will share insight from their experiences and journey. In addition, STEM experts, scientists, and engineers will be available on site to consult with parents, teachers, and students regarding their research projects.

Completing a research project is ideal for implementation of the scientific or engineering practices of the Next Generation Science Standards (NGSS) as well as the California Standards in Science Literacy and the California Standards in Mathematics.

Contact us to ask how you or your organization can sponsor a booth or provide awards for our students at our Riverside County Science and Engineering Fair.

Who Should Attend

Science fair coordinators, K-5 teachers, science teachers, parents, and students.

Date

Saturday, September 26, 2020

Time

9:00 a.m. - 1:00 p.m.

Deadline

Friday, September 11, 2020

Attendee Limit

300

Registration Fee

None

Location

Video Conference
