

Shifting the Focus From Summative Tests to Formative Assessment Practices - Secondary (6-12)

In this era of the standards movement, assessment plays a key role. Summative high-stakes tests have driven instruction for over a decade with little overall gains and a growing achievement gap. Educational research informs us that formative assessment practices produces significant increases in student learning. This session will provide strategies and tools to foster highly-effective formative assessment teaching practices in the classroom. We will view and discuss video cases, examine student work, and share professional development learning cycles to support teachers in enacting formative assessment practices with their students. A new type of formative assessment lesson will be introduced called re-engagement.

Who Should Attend

District Assessment, Curriculum and Instruction Leaders,
Mathematics Instructional Coaches,
and Mathematics Lead Teachers

Presenter

David Foster, Executive Director, The
Silicon Valley Mathematics Initiative

Date

Thursday, January 14, 2021

Time

8:30 a.m. – 3:30 p.m.

Deadline

Tuesday, January 12, 2021

Attendee Limit

150

Registration Fee

\$45
(Includes materials.)

Location

Video Conference

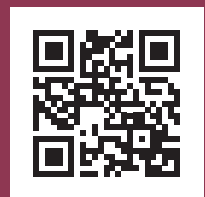

Make payment payable to:

Riverside County Office of Education

Mail to:

Riverside County Office of Education
