artwork: Artifact or action that has been put forward by an artist or other person as something to be experienced, interpreted, and appreciated.

Instruction/Motivation

Student will make a drawing of their favorite character. In creating their artwork, they are at the same time walking an audience through the process of their creation, explaining choices and actions as they go along.

Procedure

1. Give the student paper and whatever drawing/coloring options are handy. Using their memory, not a reference photo or screen, have them draw their favorite character.
2. As they are creating their artwork, ask them to explain to you how they are making their piece. Have them tell you about their materials, how they are using them and why they are making certain artistic choices.

Closure

- Ask the student if they are pleased with the work that they created?
- What parts of it were particularly pleasing to them and why?
- Ask them if they were to do the same artwork a second time, would they change anything?

Evaluation

- Was the student able to create a drawing of the character of their choice?
- Did the student explain to you what they were doing, during the process of making art?
