Building Coherent Multi-Tiered Systems of Support (MTSS): From Understanding to Action

A four-part learning series designed to support district and/or site teams in moving from a foundational understanding of MTSS to building coherent systems towards action.

Over the course of the year, teams will strengthen their understanding of MTSS as a systems framework, explore adult behavior change, and clarify district-wide definitions and structures.

Teams will engage in structured dialogue, analyze their data story, identify system needs across tiers, and map clear next steps toward sustainable implementation.

Additionally, the team will have:

- Direct access to RCOE resources and implementation tools
- Alignment and support for LCAP goals and actions
- Facilitation by experienced RCOE educators
- Opportunities to collaborate and network with LEA partners
- Dedicated team planning time during each session

Participants will leave year one with a clear common language around their MTSS framework and actionable steps towards implementation as they approach year two.

WHO SHOULD ATTEND

District MTSS Team
 Educational Services
 Student Services
 Special Education
 LCAP/Data/Site Leadership
 Site Teams Welcome
