Science and Engineering Fair Expo

The Riverside County Office of Education is proud to announce the Science and Engineering Fair Expo. The intent of the Expo is to support our students with their research projects. Workshops will be available for science fair coordinators, teachers, parents, and students. These workshops are centered on topics specific to the nature of scientific study, engineering, society for science public programs, and other topics related to K-12 science and engineering. Students will present their winning research projects and will share insight from their experiences. Completing a research project is ideal for implementation of the scientific or engineering practices of the NGSS as well as the California Standards in science literacy. STEM experts, scientists, and engineers will be available to consult with parents, teachers, and students regarding the research process.

Contact us to ask how you or your organization can sponsor a booth, provide awards for our county science fair, or make a donation to sponsor students for the Intel International Science and Engineering Fair (Intel ISEF).

WHO SHOULD ATTEND: Science fair coordinators, K-5 teachers, science teachers, parents, and students.

DATE: Saturday, October 20, 2018

LOCATION: Riverside County Office of Education
Conference Center
3958 Twelfth Street
Riverside, CA 92501
(Map on reverse.)
