

2019 -2020 RCSEF International Science and Engineering Fair Application Information

The Riverside County Science and Engineering Fair (RCSEF) is pleased to announce affiliation to the International Science and Engineering Fair (ISEF). A maximum of three (3) Senior Division projects will be chosen at the RCSEF that will go on to compete at the ISEF in Anaheim, California May 10-15, 2020. Submitting an application will determine eligibility. The finalists will be determined by project quality and sophistication of research and chosen by the RCSEF-ISEF judges.

For reference, the ISEF rules and forms required for students to complete prior and after experimentation are available at <http://www.societyforscience.org/isef/document>. Additionally, the home page for Intel ISEF is at <http://www.societyforscience.org/isef>.

For projects to be considered for advancement to the ISEF at the RCSEF, the following forms must be submitted by the listed due date.

	Form / Document	Format Example	*Form Due Date
<p style="text-align: center;">Naming Format for each Form:</p> <p>Please note that all Forms need to be submitted in a PDF format with all text boxes completed using the fillable Fillable ISEF 2020 Forms. Each Form should be submitted individually. Please use the specific naming convention of “form number first initial.lastname” when submitting your documents as individual PDF’s. Submissions need to be sent to yshimojyo@rcoe.us</p>	Form 1 - Checklist for Adult Sponsor Form 1A – Student Checklist Research Plan Form 1B – Approval Form	1J.Smith 1AJ. Smith RPJ.Smith 1BJ.Smith	9-27-2019
	Form 2 – Qualified Scientist Form Form 3 – Risk Assessment Form Form 4 – Human Participants Informed Consent Sample Form 5A – Vertebrate Animal Form Form 5B – Vertebrate Animal Form Form 6A – PHBA Risk Assessment Form 6B – Tissue Form	2J.Smith 3J.Smith 4J.Smith ICJ.Smith 5AJ.Smith 5BJ.Smith 6AJ.Smith 6BJ.Smith	12-13-2019
	Form 1C – Regulated Research Industrial Setting Form Form 7 – Continuation Projects Form	1CJ.Smith 7J.Smith	2-7-2020

All research involving vertebrates or potentially hazardous biological agents (PHBA) must be reviewed and approved by the Scientific Review Committee (SRC) prior to experimentation. All research involving human participants must be reviewed and approved by the Institutional Review Board (IRB) prior to experimentation. This includes review of any surveys or questionnaires used in the research. **To obtain SRC or IRB approval and to be considered for advancement to the ISEF, students must submit their Research Plan and copies of all relevant forms by required *due dates, by email:**
