Expanding Horizons offers a unique opportunity for organizations to be the difference in students’ lives, not only preparing them for the demands of college and a career, but also for the social and civic responsibilities of their community from mentors who model positive life-choices and empathetic generosity.

Your organization can change the cycle so that students who have been expelled, were put on probation, and/or are dealing with a disadvantaged socio-economic status, can become a positive citizen in their community.

“I think this is a wonderful opportunity for youth to get unique work experience in local government. It allows the opportunity to develop skills they will need to be successful in the future.”
